## PROFESSIONAL SUMMARY

*Associate Product Manager with experience in driving **end-to-end product execution**, backed by 4+ years in mobile engineering. Proven ability to **lead cross-functional teams**, **prioritize** effectively, & **deliver 0–1 products** in fast-paced environments by translating user feedback, & supporting problem solving with **data analysis** & **API integration**.*

## SKILLS

**Product & Execution:** Product Discovery, Roadmapping, PRDs, Product Development Lifecycle Management, AI Product Strategy, Agile Delivery
**Collaboration & Strategy:** Stakeholder Management, Cross-functional Collaboration, Feature Prioritization, Conflict Resolution, Market Research, Competitor analysis
**Product Thinking:** User stories, UI/UX Design, Funnel Analysis, GenAI Workflows, AI Agents, MCP, LLM-based Systems, Prompt Engineering, RAG Systems
**Tools:** Mixpanel, Jira, Linear, Confluence, Figma, Lamdatest, CleverTap, Claude-code, Google Anti-Gravity, Cursor, SQL

## EXPERIENCE

**Spacekayak - Sanctuary** Oct 2025 – April 2026
*Associate Product Manager* Bengaluru, KA

- Owned **end-to-end execution** of a **scam safety prevention app** with over **50,000 downloads and 4.8 play store ratings** in first 6 months of launching.
- Defined **product roadmap** and feature prioritization using **data analysis** and risk-based **use case mapping**, resulting in **8+ high-impact core app modules** successfully delivered with increased **sprint predictability by 68%**.
- Used **Claude Code** and **Google Anti-Gravity** for rapid **AI-Assisted development** of functional prototypes, reducing idea-to-demo time from **2 weeks** to **2-3 days** and significantly improving clarity and alignment across product, design, and engineering.

**Settlin Properties** Oct 2022 – Aug 2024
*Internal Product Manager | Sr. Flutter Developer* Bengaluru, KA

- Reduced **missed appointments** by **30%** by defining and delivering **Product Roadmap** for scheduling feature and completing MVP building in 5-6 months for a Partner App, increasing the **revenue by 30%**.
- Improved **resolution speed** by **50%** & team efficiency by **75%** by implementing a **bug-reporting system** linked to app sessions after conducting meetings with various **Stakeholders**, benefiting the development team.
- Accelerated **feature delivery by 40%** by spearheading **sprint planning & backlog prioritization** and creating **Figma wireframes** for **5+ product improvements**.

**Goodgist.ai (formerly Researchfin.ai)** Feb 2022 – Sep 2022
*Flutter web developer | Software Engineer* Bengaluru, KA

- Enhanced **delivery efficiency by 70%** by developing **scalable web architecture**, resolving **critical performance issues**, and setting up fundamental state-management systems.

**Digitrack Sports** Jan 2021 – Jan 2022
*Software engineer | Flutter Developer* Pune, MH

- Increased participation by **25%** by developing and deploying **live class feature** for **real-time sessions** after talking to various **clubs & Gym-Khana**.

## RECOGNITIONS & CERTIFICATIONS

**Nextleap**—*PM Fellowship*, Oct 2024 - Jan 2025 – ***Top Product fellow out of 300+ peers**, Score: 227.18/300 – Top PRD*

**Product School**—*Product Roadmapping Micro-Certification (PRC)*, Jun 2025 *(Self-paced)*

## Projects

**DhundoJob – AI Email Outreach Automation tool** –Link Demo April 2026

- Built and deployed a full-stack automation tool to streamline cold outreach by **automating lead discovery, email pattern recognition, and personalized message generation via gen-AI**. Increasing the conversation rate by **20%.**

**Amazon Audible - Mitch AI** (Product Design) –PRD Sep 2025

- Designed **Mitch AI**, a conversational **GenAI assistant** built on top of existing clip-note features to help listeners **synthesize and query knowledge** from non-fiction audiobooks.

## EDUCATION

**B.E. Information Technology**, Ramrao Adik Institute of Technology, Mumbai University *(2014-2018)*

**CBSE 12th (Science)**, Kendriya Vidyalaya, Ajni — *78.6% (2012-2013)*
